Mr. William A. Schmidt
Acting Commissioner
Public Buildings Service
General Services Administration
Washington, D. C.

Dear Mr. Schmidt:

I refer to your letter of July 12, 1965 enclosing an amendment to the Memorandum of Understanding relating to design and construction of proposed printing services facilities at Langley.

The funding proposed in this amendment covers design and construction of auxiliary utilities not required for the basic building but necessary for the operation of the printing equipment and related facilities. It is suggested that a separate "Memorandum of Understanding and agreement" be prepared in lieu of the amendment which is returned herewith. This memorandum should show the following Statutory Reference:

PL 81-110 (1949) as amended - 50 USC 402(a)
